Wow!

Beauty that crosses fashion

When the space is shrouded in blue, we seem to enter the underwater world. With the warm sand color, we enjoy the magnificent, interesting and cool emotional atmosphere in the surging sea water.

THE HIGH-QUALITY WALLPAPER

The image displays a dense, repeating pattern of a vintage electronic circuit board, characteristic of a mid-20th-century radio receiver. The circuit is laid out in a symmetrical, grid-like fashion. Key components visible include: vacuum tube sockets labeled 'k' and 'e'; various resistors with values such as 2 ohms, 4 ohms, 6 ohms, 8 ohms, and 15 ohms; capacitors with values like 5 mfd, 8 mfd, and 15 mfd; diodes; and a central transformer. The brand name 'VECTOR' is printed in a bold, sans-serif font across the middle of the pattern. The overall aesthetic is technical and precise, with fine lines representing the circuit traces and component footprints.
